RICICLABILITÀ • RECYCLABILITY

Riciclabile, raccolta differenziata: “INDUMENTI”. Verifica le direttive del comune di residenza.
• Recyclable, separate collection: “CLOTHES”. Check the directives of your municipality.

PRODUZIONE • MANUFACTURING

Prodotto in Italia • Made in Italy

CERTIFICAZIONI • CERTIFICATION

Possiamo offrire la shopping bag o il packaging certificato GRS. • We can offer the GRS certified shopping bag or packaging.

“Cenciaioli” RECYCLED COTTON (pre or post-consumption)

Punteggio Higg Index/SAC (Sustainable Apparel Coalition) per la materia grezza (1 Kg) prima della lavorazione.

Metodologia di punteggio: la procedura per convertire i dati del punto medio LCIA in punteggi ambientali per le categorie di impatto misurato LCIA (Life Cycle Impact Analysis / Analisi dell'impatto del ciclo di vita)

Biogenic* Carbon Content & Water Consumption do not count towards the final MSI score

Global Warming	Biogenic* Carbon Content	Eutrophication	Water Scarcity	Water Consumption	Resource Depletion, Fossil Fuels	Chemistry
0.21	-	0.16	0.12	-	0.17	0.96

Description

Pre-consumer and post-consumer textile clips are mainly collected and carefully sorted according to their quality and colour as a raw material from different textile plants from all around the world. Then, textile wastes are cut into small pieces, shredded and opened back into fibers ready to be spun again.
